## OBJECTIVE

Aspiring Data Analytics and Python professional with a strong interest in AI. Skilled in turning raw data into clear insights using Excel, SQL, Power BI, and Python. Enjoys building real, working projects that solve practical problems.

## KEY STRENGTHS

- Fast learner: consistently picks up new tools, languages, and platforms quickly — demonstrated across multiple certifications and self-driven projects.
- Collaborative team player: experience leading research and coordinating technical contributions within a team toward a shared product goal.

## EDUCATION

### Ambalika Institute of Management and Technology

Expected Graduation: 2027

B.Tech in Information Technology (IT) — Current CGPA: 8.68

Class XII: 82.6% | Class X: 82.5%

## PROJECTS

### AI Resume Analyzer | Python, Flask, HTML, CSS, JavaScript

Solo Project — Mini-Project

[Live Demo](#) | [GitHub Repo](#)

- Developed an ATS-based Resume Analyzer that extracts PDF resume text, calculates ATS scores, matches resumes with job descriptions, identifies missing skills, and displays results through a professional dashboard with AI and Local ATS support.
- Independently designed and built the full stack end-to-end — Flask backend, PDF text extraction, AI-driven analysis logic using Google Gemini AI, and a results dashboard — covering the complete software development lifecycle.
- Demonstrates ability to design a working system, integrate a third-party AI API, and ship a client-facing tool.

## SKILLS

**Data Analytics:** Excel, SQL, Power BI, Python

**Web Development:** HTML, CSS, JavaScript

**Python:** Intermediate
